

# NEW

## Sage 50 Accounts

---

Sage 50 Accounts is the market-leading accounts software that puts you in complete control of your business.

---

## What's new in Sage 50 Accounts?

New Sage 50 Accounts marks the next era in accounting software, giving you the freedom to work where and when you want to.

It gives you the best of both worlds, with the benefits of stable, reliable desktop software and the choice to also link your data in the cloud, to give you greater flexibility and security.

- Share data with your accountant in real-time – no more waiting for files to be transferred\*

- New mobile apps help business managers and sales teams understand performance on the go
- Automatic backups protect your data and make it easy to restore

There's a whole new look and feel, making it easier for you to find key tasks with one click navigation. Streamlined navigation helps you work more efficiently. And it's been tested to deal with up to 1.5 million transactions.

---

---

## Twice as quick to navigate

New Sage 50 Accounts has a brand new look and feel, designed to make it simpler, more efficient and help you complete day-to-day tasks in half the time.

In testing, existing users have been able to navigate the software almost twice as fast as before and are 15% more successful in completing tasks.

We've listened to you and now allow you to tailor your screen based on what you need, so you see the information and tasks you want and hide those you don't.

There's updated navigation, with one click access to any ledger and one way to access key tasks. And it's easier to select the data you want, with the option of using shift or ctrl to select multiple items – something we know you've been asking for.

**“It used to take up to 7 minutes to return data. I'd go and make a cup of tea while it was running. Now it takes about 1 or 2 seconds.”**

In tests over 2,000 users reduced the average time it took to complete a task with new Sage 50 Accounts by 44%  
**New Sage 50 Accounts is almost twice as fast to navigate**

---

## Software that fits the way you work

Set up Sage 50 Accounts to suit your needs or those of different roles within your business. Configure the navigation and task tool bar to fit the way you work and increase your productivity.

## Easily find the information you want

Flag records as inactive and hide them from search lists to make it easier to find the customers, suppliers or products you are looking for.

## Real-time access to your information anywhere

By linking your Sage 50 Accounts data to the cloud, you can easily access it from other devices with Sage Drive. For example, a colleague working from home or anywhere outside the office can access the updated information and work on the same data as someone using the desktop version. You receive one Connected Device with Sage 50 Accounts.

## Simple control of access rights

Stay in control of your data and who can see what, with simple to set up access rights. Giving you control over your data for up to 20 users.\*\*

## Sage Business Community

Sage 50 Accounts subscription customers with support and Sage Cover customers are welcomed to the Sage Business Community – an online area where members can share their expertise and insight. You can connect with others to exchange advice and support and make valuable new business contacts.

## Software that grows with your business

---

New Sage 50 Accounts can now support up to 20 users\*\* at the same time. So as your business grows you can focus on moving forward with software you know, rather than going through the disruption of a new system.

---

### **No limits or delays**

New Sage 50 Accounts has been tested with up to 1.5 million transactions, and up to 20 concurrent users\*\*, so you can be confident it can deal with your day-to-day business.

### **Automatic data back up while you work**

Ensure your backup data is always up to date by scheduling regular, automatic backups. That means you have the peace of mind that your accounts data is safe in the unlikely event of a problem. And there's no need to stop processing when you're taking a backup.

# New Sage 50 Accounts Mobile Apps

New Sage 50 Accounts mobile apps put the power of Sage 50 Accounts at your fingertips with the simplicity and flexibility of app technology. Meaning you can keep in touch with your business and make informed decisions wherever you are, even when there's no internet connection.

## Sage 50 Accounts Business Manager\*

### For smartphones

Perfect for anyone who needs meaningful business insight on the go, Sage 50 Accounts Tracker tells you how your business is performing from your smartphone.

By cutting out the need to wait for reports or checking back with the office to get up-to-the-minute information, it helps you make quick, confident decisions about your business, by putting the supporting information in your hands.

- **Data at your fingertips**

Immediately see top level sales, purchases, bank balances and profitability. More detailed understanding of invoices, bank details, reconciled position and profit and loss balances is only a screen tap away.

- **Contacts and directions on demand**

Find customer and supplier contact details, together with a handy map view. Call, email or text without having to switch apps.

- **Keep your eye on cash flow**

See customer and supplier invoice lists, filter by due days, overdue days and value to help you target where you need to chase or make payments.

- **Understand your profits**

Check Profit and Loss balances for the month and year end to date.

## New Sage 50 Accounts Mobile Sales\*\*\*

### For tablets

Ideal for people who need to manage their sales pipeline on the move, Sage 50 Accounts Mobile Sales helps you manage your customer relationships, and make the best use of your time to initiate and close sales.

- **Products and prices at your fingertips**

Immediately see accurate product and price details without having to refer to reports, printed sheets or call back to the office.

- **Quick quotes, orders and invoices**

Instantly create accurate quotes, orders and invoices to secure sales and keep your pipeline moving.

- **Speed up sales**

With detailed customer information in your hands, you can initiate and close sales wherever you are. Giving you and your customers confidence in your business and driving sales forward.

- **All in one contacts**

Find customers contact details, including notes, reminders and details of their purchase history and payment reliability. Get maps and directions without leaving the app. Everything's in one place.

- **Insight on demand**

Sage 50 Accounts apps work online and offline to give you business information wherever you are at any time.

- **Connect even without coverage**

Get up-to-the-minute customer and product information even when Sage 50 Accounts isn't running and you have no mobile network coverage.

- **Protected and secure**

Ensure your data is safe and protected with encryption and secure sign in.

- **No expertise necessary**

Quick and simple to set up and use. You don't even have to know how to use Sage 50 Accounts to get the business data you need. It's an app after all.

- **Get more done in less time**

Because you can help yourself to the information you need quickly and easily without relying on others to compile reports, you can work more efficiently. And that could mean more time for the important things, like weekends.

Sage 50 Accounts Tracker and Sage 50 Accounts Mobile Sales are supported by

- iOS v7 and onwards
- Android v4

# Work with your accountant in real-time\*

---

---

Sage 50 Accounts with Sage Drive you can share live accounts data securely online with your accountant, meaning you can both work on the most up to date data, without disrupting your business.

That means you can have confidence that your accountant can offer you the best advice based on current data, and can always help you manage your accounts. There's no need to stop processing while they provide their services, meaning less down time for your business.

And you can see exactly what changes your accountant has made, so you understand the effect on your business.

Thanks to multi-level online security, your data is protected and is only available to the people you allow to see it. You maintain control of that access at all times. One Connected Accountant is included with Sage 50 Accounts.

---
